

# FLASK PROJECT (HELLO WORLD)

Team Id:PNT2022TMID05086

The screenshot shows the PyCharm IDE interface. The main editor window displays the `main.py` file with the following code:

```
1 from flask import Flask
2 app = Flask(__name__)
3
4 @app.route("/")
5 def hello():
6     return "hello world"
7
8 if __name__ == "__main__":
9     app.run()
```

The Run tool window at the bottom shows the command used to run the application: `C:\Users\barav\PycharmProjects\pythonProject1\venv\Scripts\python.exe C:\Users\barav\PycharmProjects\pythonProject1\main.py`. The output indicates that the Flask app is serving on `http://127.0.0.1:5000`. The terminal also shows the following output:

```
